RASTEDER ORTHODONTIC LABORATORY

A modern method called "In-line" makes it possible to correct teeth that are too far apart or are overcrowded. It guarantees a delightful smile and improves your attitude to life. While In-line® is transparent, comfortable and removable, it gently moves the teeth. In-line® consists of a set of removable plastic splints, which means the teeth are corrected and repositioned without the need for conventional metal braces.

DENTAL SUPPLIERS

TI-TEC IMPLANTS

Ti-Tec Implants offers an advanced, proven single-phase implant procedure. This user-friendly system transforms dental implantology from a daunting surgical exercise into a simple, cost-effective procedure. Offering numerous benefits for the dentist, laboratory technician and the patient, Ti-Tec Implants are based on a system designed specifically to simplify the surgical and restorative aspects of implant therapy, requiring neither expensive equipment nor advanced technical know-how for the restorative phase. We are suppliers of Cytoplast resorbable, non-resorbable, titanium membranes and PTFE monofilament sutures.
